Product Overview

The L2 Managed Gigabit 8POE+2SFP Switch is a layer 2 plus managed switch equipped with 8 gigabit RJ45 portsand 2G SFP. All RJ45 Ports support the 802.3af/at (PoE+) standard, supplying a total PoE power of 150W.

With abundant layer 2+ management features supported, the ND5PG0802M-L2 can deliver high throughput to even the most demanding edge-of-network workgroups. In small networks, it can act as a backbone for gigabit switches and high-speed servers. Two SFP slots provide greater network flexibility.

The L2 Managed Gigabit 8POE+2SFP is designed exclusively for the networking needs of growing businesses. It offers an extensive suite of management and security features. These devices are cost-effective for small and medium-sized businesses and provide ideal solutions for a variety of network scenarios.
